

Feedback from Full day Presentation to Principals, Teachers and Chaplains at

Toowoomba State High School 19th June 2018

Conference titled Trauma Informed Care by Dr Jonathan Andrews

“Whilst you are talking I am just getting a lot of aha moments. Dose and what you go back to DOES impact my level of trauma”

“This is awesome! This information is so good for what we do at the schools and is giving me so much insight and clarity. This is really good for all the teachers” (after first session)

“This first session was explained clearly and succinctly and really helped us to understand trauma and resilience and what they truly mean” Regional office project leader

“loved the idea of an interpersonal process (loving relationships) becoming an intrapersonal process (self love)”

“I learnt that you cant have authentic relationships when you are lost in your role”
Indigenous aide

“This is such an interesting training. I would like to use it to engage more Psychology support in schools” Central office, Indigenous Project leader

“Simplicity of the way the information was presented was excellent”

“I really enjoyed debriefing with other schools who are doing my role”

“I found the whole workshop excellent”
